INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyright, industrial designs, timber marking, governmental and parliamentary translations, boards of trade, the registration of trade unions, public officers and public documents.

The Secretary of State is the channel of communication with the Governor General and, through him, with the Sovereign concerning various matters, such as decorations and other subjects related to the exercise of the royal prerogative, and is responsible for the preparation and tabling of certain returns in Parliament.

The Registrar General is the custodian of the Great Seal of Canada and of a Privy Seal of the Governor General.

The Decorations Committee and the Committee on the use of Parliament Hill and the National War Memorial report to the Secretary of State. State ceremonial, decorations and precedence, including publication of the Guide to Relative Precedence at Ottawa, are amongst a variety of "residual" functions entrusted to the Department of the Secretary of State.

The staff of the department is headed by the Under Secretary of State and Deputy Registrar General of Canada, who is also Deputy Custodian of Enemy Property. Other officers are the Assistant Under Secretary of State and Advisory Counsel and the directors of the divisions enumerated below, three of whom have statutory designations, namely the Commissioner of Patents, the Registrar of Trade Marks, and the Superintendent of the Bureau for Translations.

The functions of the department are carried out by the following divisions: Administrative Services Division, Companies Division, Patent and Copyright Office, Registration Division, Special Division, Trade Marks Office and Bureau for Translations. The activities of these divisions, in that order, are outlined in this report.

The Secretary of State is Custodian of Enemy Property and as such administers legislation relative to wartime trading with the enemy. The operations of the Office of the Custodian of Enemy Property are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Public Printing and Stationery and is the spokesman in the Privy Council, Cabinet and Parliament of the Civil Service Commission and the Chief Electoral Officer. However, the present report covers only the operations of the Department of the Secretary of State.

LIBRARY

The following collections are in the Library:

The Statutes of Canada, of the Provinces and of the United Kingdom, The Canada Gazette, Provincial Gazettes and the London Gazette; Journals and Debates of the Senate and of the House of Commons; LAW REPORTS OF CANADA: Supreme Court, Exchequer Court, Dominion Law Reports, Western Weekly Reports, Canadian Annual Digest, Canadian Abridgment, Canadian Encyclopaedic Digest, Ontario Reports; LAW REPORTS OF THE UNITED KINGDOM: Judicial Committee of the Privy Council Appeal Cases, Chancery Division, Probate Division, Queen's Bench Division, Weekly Law Reports; Encyclopaedias, biographies, year books and directories.

The customary searches were made, for members of this and other Departments, in orders in council, records of appointments, proclamations, statutes, regulations, historical data, biographies, etc. Approximately 2,557 books were loaned and 1,939 volumes were consulted.

COMPANIES DIVISION

Under the Companies Act

Letters patent were granted incorporating 896 companies under Part I and 45 corporations without share capital under Part II.

Supplementary letters patent were granted to 569 existing companies and to 9 existing corporations without share capital; 13 certificates were issued to existing companies increasing the amount of consideration to be received for the issuance of shares without nominal or par value.

Pursuant to the provisions of Part IV, 7 licences were issued to foreign mining companies to carry on mining operations in the Northwest Territories and in the Yukon Territory.

The total number of documents entered on the Register of Mortgages and Charges pursuant to the provisions of sections 66, 67 and 68 was 181.

The number of annual summaries submitted under section 125 totalled 12,294.

Certificates of acceptance of surrender of charters were issued dissolving 203 companies under section 29 and 107 charters were returned for cancellation. Advice was received to the effect that 23 companies had gone into bankruptcy or were in process of liquidation.

The Companies Division maintains a complete record of the names of all Canadian companies incorporated under or by federal and provincial statutes. There were 5,156 searches undertaken by the Searching Section, of which 4,353 were to determine the availability of suggested corporate names and 803 were inquiries as to the existence or otherwise of companies under specific names.

Under the Boards of Trade Act

There were 29 boards of trade registered, 9 orders in council issued changing the names of boards of trade, 2 orders in council issued changing the boundaries of existing boards of trade, and 1 board of trade was dissolved.

Under the Trade Unions Act

Two trade unions were registered.

PATENT AND COPYRIGHT OFFICE

Report of the Commissioner of Patents for the fiscal year ended March 31, 1960.

INTRODUCTION

This report is made pursuant to the requirement of section 27 of the Patent Act, (Chapter 203, R.S.C. 1952 as amended by Chapter 19, and Chapter 40, section 15, 2-3 Eliz. II, 1953-54). The tables included herein contain information concerning the transactions of the Office, patent, copyright, industrial design, and timber mark fees, total receipts and expenditures, trend of invention, residence of inventors for applications filed and residence of inventors for patents granted. Examination and disposal of a patent application by the Office in accordance with the Act and Regulations entail a search for novelty, consideration of inventive subject matter, a decision as to patentability and also verification of compliance with procedural requirements. The statute provides for the grant of a seventeen year exclusive right to the inventor (or his successor in title) in return for his disclosing and making available to the public the product of his inventive genius and labours. It also contains provisions to safeguard the public interest against possible abuses of patent rights.

GENERAL BUSINESS

The general business of the Office again shows an increase compared with that of the previous year.

Applications for patents totalled 24,292, an increase of 1,380, or 6 per cent. This is an all time record for the Office. Of the total number of applications filed, 18,403 claimed priority of filing date under the International Convention for the Protection of Industrial Property. This is an increase of 1,735 or more than 10 per cent.

Allowances of applications totalled 23,272, an increase of 1,352 or 6 per cent over last year. There were 32,758 reports on patentability, an increase of 3,215 over last year. The allowances and reports, being the total number of applications acted on by the Examiners, amounted to 56,030 or 4,567 more than last year (and represent also an all time record for the Office). During the year 3,438 applications became abandoned through rejection for non-patentability or failure of the applicant to continue prosecution.

There were 22,021 patents issued. This is an increase of 3,728 or 20.5 per cent over last year. This is also an all time high. The special directives issued by the Commissioner in the second half of the previous year had resulted in an increase of 23.7 per cent in the number of allowances. This in turn has produced during the last year an increase of 20.5 per cent in the number of patents issued due to the payment of final fees during the period of six months after allowance.

The number of deeds entered in the register of assignments was 22,015 an increase of 1,807, or 9 per cent over last year. This is also an all time record.

Copies of specifications, drawings and other patent documents to the number of 9,608 were made.

Copyright applications numbered 5,618 and there were 5,513 registrations made. Industrial design applications amounted to 812 and 790 designs were registered; 185 design registrations were renewed.

The following tables show, respectively, the transactions of the Patent Branch and of the Copyright and Industrial Design Branch for the last ten year period.

The fees from all sources amounted to \$1,818,299.52, an increase of \$235,154.28 from the preceding year.

Receipts from the Patent Branch totalled \$1,793,685.17. This is \$233,980.51 more than last year. (There were increases mainly in filing, final, assignments, claims, printed copies and searches under section 11 fees).

The sale of copies of printed patents has increased from 152,000 copies sold during 1958-59 to 261,738 copies sold during the year 1959-60 for a revenue of \$152,492.07.

Copyright Branch receipts were \$24,614.35, an increase of \$1,173.77.

The total expenditure was \$2,460,370.76, an increase of \$293,213.36. Most of this increase is due to salaries including normal statutory increases and new employees.

PATENT GRANTS

There were 22,021 patents granted. Of the total 21,977 were issued for the full term of seventeen years and 36 were reissued under section 50 of the Act for the unexpired term of seventeen years for which the original patents were granted. Under section 28A, 8 patents were issued.

Patents issued to assignees of the whole interest totalled 18,697, jointly to inventors and assignees of part interest 160, to inventors or to legal representatives 3,164.

The number of patents issued to companies was 18,379, to individuals 3,572 and to companies and individuals jointly 70.

Patents where invention was claimed to have been made by two or more inventors totalled 7,202 and by one inventor 14,819.

Of the total, 79 patents were issued to female inventors, to male and female inventors jointly 100, and to male inventors 21,842.

There were 1,903 patents granted to Canadian citizens or companies and 20,118 to applicants of foreign origin.

There were 41 patents issued subject to the Public Servants Inventions Act.

FORFEITURES, RESTORATIONS AND REINSTATEMENTS

Due to failure to pay the final fee within the period required by section 75, a total of 761 allowed applications became forfeited. Upon payment of restoration and final fees 188 forfeited applications were restored. Of the applications that had lapsed through failure to complete the formal papers or prosecute within the time provided by section 32, reinstatements were allowed in respect of 172.

REGISTER OF PATENT AGENTS

Under the provisions of section 15 of the Patent Act and the Rules under the Patent Act, the names of 83 agents were added to the Register. By reason of failure to comply with rule 144, the names of 29 patent agents were removed from the Register. A qualifying examination under rule 143 was held at Montreal, Ottawa, Toronto, Edmonton and Vancouver on October 19th and 20th, 1959. 19 candidates tried the examination and 10 were successful. At the close of the year the names of 1,175 patent attorneys and patent agents appeared on the Register.

PATENT OFFICE RECORD

Pursuant to section 27 of the Patent Act, which required the publication of a list of all patents granted, the official journal of the Office, The Canadian Patent Office Record, was published on Tuesday in each week. Publication was made in each issue of the principal drawings and claims of patents granted on the day of publication, notices and other actions under the Patent Act, lists of copyrights registered, assignments of copyrights and abridgments of industrial designs registered during the week. Starting with the issue of January 5, 1960, the number of claims published in the "Record" has been reduced to two instead of four. With all the claims readily available in the printed patents the two claims should be sufficient for all practical purpose. This should effect a substantial saving in the cost of printing.

The Office continues to exchange the "Record" for the official journals, indexes and reports on patents and designs from patent offices in Australia, Austria, Belgium, Egypt, France, Germany, Great Britain, India, Ireland, Italy, Mexico, the Netherlands, New Zealand, Norway, Pakistan, Union of South Africa, Sweden, Switzerland and the United States of America.

The "Record" was also exchanged for 19 scientific periodicals and trade journals for the use of the Office.

PATENT PRINTING

The Department of Public Printing and Stationery printed 22,108 patents during the year for the Office. This figure includes 176 reprints.

PATENT OFFICE LIBRARY

During the year 1,358 volumes were added to the Library. Copies of current patent issues were received regularly from Australia, Austria, Belgium, France, Great Britain, Italy, Japan, the Netherlands, Pakistan, Sweden, Switzerland and the United States of America. In addition, patent journals, indexes and reports were received from the countries named in the paragraph above entitled PATENT OFFICE RECORD and from Colombia, Czechoslovakia and Yugoslavia.

The Patent Office Library now contains copies of patents of the following countries from the dates given to the present date, namely: Great Britain from the year 1617, the United States of America from 1845, France from 1902, Italy from 1925, Australia from 1926, the Netherlands from 1947, Sweden from 1947, Switzerland from 1949, Austria from 1949, Belgium from 1950, Japan from 1950 and Pakistan from 1959. The Library also contains printed copies of Canadian patents from January 1, 1948, and plant patents of the United States of America from No. 1 of August 1, 1931 to No. 1,925 of March 29, 1960.

All the United States patents from 1934 to date are segregated according to the classification in force at the time of issue of the individual patents.

The Patent Office Library contains 29,573 volumes in all.

MICROFILMING

During the year 77,190 patents were microfilmed. This includes patent No. 269,336 (issue date February 15, 1927) to patent No. 346,525 (issue date December 4, 1934). The total number of patents microfilmed is 177,726.

STAFF

During the year 19 Patent Examiners were appointed. Twelve Examiners resigned their positions, one retired on pension and one died. The average number of examiners' positions filled was 104.

The recruiting of patent examiners is still a problem for the Patent Office.

NEWFOUNDLAND PATENTS

Five applications for the grant of letters patent under the laws of Newfoundland (pursuant to the provisions of subsection 3 of section 20 of the Terms of Union of Newfoundland with Canada) remained pending at the end of the year, notice of objection to the grant of such letters patent having been filed against each application.

REGISTRATION DIVISION

The following schedule indicates the number of documents issued and registered in this section from April 1, 1959 to March 31, 1960, inclusive.

The Registration Division is charged with the responsibility of collecting the returns to orders and addresses of the House of Commons and Senate and also the answers to questions which concern more than one department of the government.

The Division is the custodian of the following seals, which it affixes to the appropriate documents: Great Seal of Canada, Governor General's Privy Seal, Seal of the Administrator of Canada, Seal of the Secretary of State of Canada, and Seal of the Registrar General of Canada.

A considerable amount of miscellaneous work was performed in connection with the registration of documents, proof-reading, furnishing memoranda of various kinds and supplying information from the indexes and cards.

Lists are appended of public officers whose commissions were registered, of Boards of Trade registered under the Boards of Trade Act, and of registered bonds and securities.

SPECIAL DIVISION

The Division dealt with a number of applications requesting royal patronage in the form of permission to use the names of the Queen and of other members of the Royal Family and the prefix "royal". Arrangements were made for congratulatory messages from the Sovereign for 640 sixtieth wedding anniversaries and 96 one hundredth birthday anniversaries.

Requests for recognition of acts of bravery by the award of bravery decorations by the Queen were investigated and submitted to the Decorations Committee. Of the number of submissions received, the Secretary of State recommended and the Queen approved the award of decorations to fourteen Canadian civilians, listed hereunder with the date of publication in the Canada Gazette:

MCHALE, Corporal Kenneth Marshall, R.C.M.P.	c/o R.C.M.P.	September 26, 1959

Administrative and clerical assistance in connection with these awards and with related matters was given to the Decorations Committee.

The usual arrangements for the printing and distribution of the Speech from the Throne were made for the closing of the second session and the opening of the third session of the 24th Parliament.

The Secretary of State granted permission for 17 ceremonies to be held on Parliament Hill or at the National War Memorial.

The Director of the Special Division continued to represent the Department on the special interdepartmental committee which assisted the Commissioner who was appointed to make arrangements for the formal opening of the St. Lawrence Seaway on June 26, 1959 by Her Majesty the Queen and the President of the United States of America, and for the tour of Canada of the Queen and the Duke of Edinburgh. The full-time services of the Secretary of the Special Division, who was one of the Canadian officials accompanying the royal party during the royal tour, were made available to the Office of the Commissioner until August 17, 1959.

The Special Division planned and co-ordinated arrangements for the departure from Ottawa on September 15, 1959, of the Right Honourable Vincent Massey P.C., C.H., on the completion of his term of office as Governor General of Canada; and for the journey to Ottawa, accompanied by the Secretary of State, of the Governor General designate, Major-General Georges P. Vanier, D.S.O., M.C., C.D., and Madame Vanier on September 14, 1959. The Division was responsible for arrangements for the installation of General Vanier as Governor General of Canada in the Senate Chamber on September 15, 1959.

Arrangements were made by the Special Division for the dinner given by the Prime Minister of Canada and Mrs. Diefenbaker at the Country Club on September 14, 1959, in honour of the retiring Governor General.

Other ceremonial and hospitality events with which the Division was concerned during the year included receptions, dinners and other special functions held in various cities and towns during the tour of H.M. the Queen and H.R.H. the Duke of Edinburgh, and the Governor General's Levée in the Parliament Building on New Year's Day, January 1, 1960.

The customary arrangements were made from time to time on the occasion of applications received by the Secretary of State from lieutenant-governors for leave of absence from their provinces.

The Guide to Relative Precedence at Ottawa was revised, printed and distributed.

The Lieutenant-Governors of the provinces were notified of the wishes of the Queen with respect to the procedure to be followed when the birth of the royal child was announced, and subsequently were informed officially of the birth of a royal prince on February 19, 1960.

The usual assistance was given in response to numerous written and verbal enquiries concerning aspects of protocol such as precedence, ceremonial, hospitality, styles of address, the wearing of decorations, use of royal photographs, flags and armorial bearings, the proposing of toasts and other related subjects.

The Division dealt with the deposit of 111 documents pursuant to statutory requirements, and requests for the authentication of 63 documents by the Governor General.

Statutes of the provinces received by the Department were forwarded to the Department of Justice for examination under section 90 of the British North America Act; warrants under the Extradition Act were forwarded to Attorneys General of the provinces.

On November 30, 1959, a vote was taken in the Counties of Huron and Perth in the Province of Ontario for and against the adoption of petitions requesting revocation of the orders in council which brought Part II of the Canada

Temperance Act into force in those counties. The total number of votes cast in Huron for revocation was 12,073 and against revocation was 7,384; the total number of votes cast in Perth for revocation was 8,818 and against revocation was 3,185. Consequently, Orders in Council P.C. 1960-33 and P.C. 1960-34 dated January 12, 1960, were passed revoking Orders in Council P.C. 1136 dated April 28, 1914, and P.C. 2033 dated September 1, 1915, which brought Part II of the Canada Temperance Act into force in the Counties of Huron and Perth, respectively, and declaring that Part II of the Act shall no longer be in force in the said counties from and after the date of publication of the orders in council in the Canada Gazette, namely January 16, 1960.

Part II of the Canada Temperance Act is not now in force in any place in Canada.

The Division maintained a limited newspaper clipping service for the department.

The Special Division compiled and edited the annual report of the Secretary of State.

BUREAU FOR TRANSLATIONS

Parliamentary and Legal Translations

Translation was made by the respective divisions of the official report of the House of Commons Debates, which covered 6,725 pages, the report of the Senate Debates comprising 1,239 pages, the proceedings of the standing and special committees of both Houses, and the estimates.

The Law Division translated 696 bills and motions with explanatory notes and indexes.

In addition to the day-to-day translation of orders, proclamations, regulations implementing various acts, and indexes, the Bureau's Privy Council Division is responsible for translating international conventions and agreements, and many legal documents for the Privy Council. This division undertook the classification of regulations, revised earlier texts of regulations translated in other divisions and translated Treasury Board decisions, special orders, and other departmental documents.

The parliamentary divisions also did translation for other governmental bodies and commissions.

Under the heading of parliamentary translations, mention must be made of the simultaneous interpretation service that was set up in the House of Commons. This service, which is attached to the Debates Division of the Bureau for Translations, has now completed a full parliamentary session and it may be said that it gave complete satisfaction. Interpreters were also called to serve a few committees of the House.

Departmental Translation

The volume of work done by the departmental divisions continues to increase to the point where the staff of some of the divisions will have to be increased.

Foreign Languages

The work of the Foreign Languages Division continues to increase. The volume of translation from Russian, in particular, is steadily rising, as has been the case since the beginning of "cultural exchanges" with the U.S.S.R.

Translation Done on a Firm Price Basis Outside of the Bureau

As in other years, it has been necessary to enlist the services of outside translators. The volume of translation done in that way for the General Translation Division increased to 2,167,100 words compared with 1,153,100 words the previous year. This was chiefly due to the volume of proceedings of the parliamentary committees. For the Foreign Languages Division, 2,939,452 words were sent out for translation, compared with 1,808,338 words the previous year.

Total Work Done

It will be seen from the table on page 31 that the translation done by the Bureau during the year 1959-60 totals 86,904,175 words. This figure includes translations done outside the Bureau and is to be compared with that of

81,660,805 words done the previous year. The "Words" column under the heading "Miscellaneous" refers to the preparation of reports, statistical documents, comparison and standardization of texts, written consultations, etc.

The "Hours" column represents the time spent in research, proof-reading, the revision of work done outside the division concerned, the compiling of glossaries, and other work related to translation which cannot be calculated in numbers of words.

Co-operation with Other Bodies

Translators are called upon to give assistance to other official bodies as, for example, in the marking of translation examination papers for the Civil Service Commission, or reviewing candidates' records in promotional competitions; in addition, assistance is given to various departmental and inter-departmental committees such as the Board of Geographical Names, Department of Mines and Technical Surveys. The time devoted to such assistance is not reflected in the table on page 31.

Terminology Service

During the past year, this service published several terminological bulletins and several others are in preparation. The service is revising older bulletins and bringing them up to date. A plan is under consideration to make these documents available to the public.

The Terminology Service keeps in touch with many similar bodies in other countries, particularly international organizations, and receives from them some valuable vocabularies and terminological lists in exchange for its own. This Service co-operates and exchanges information with the Comité d'étude des termes techniques français, of Paris, among others.

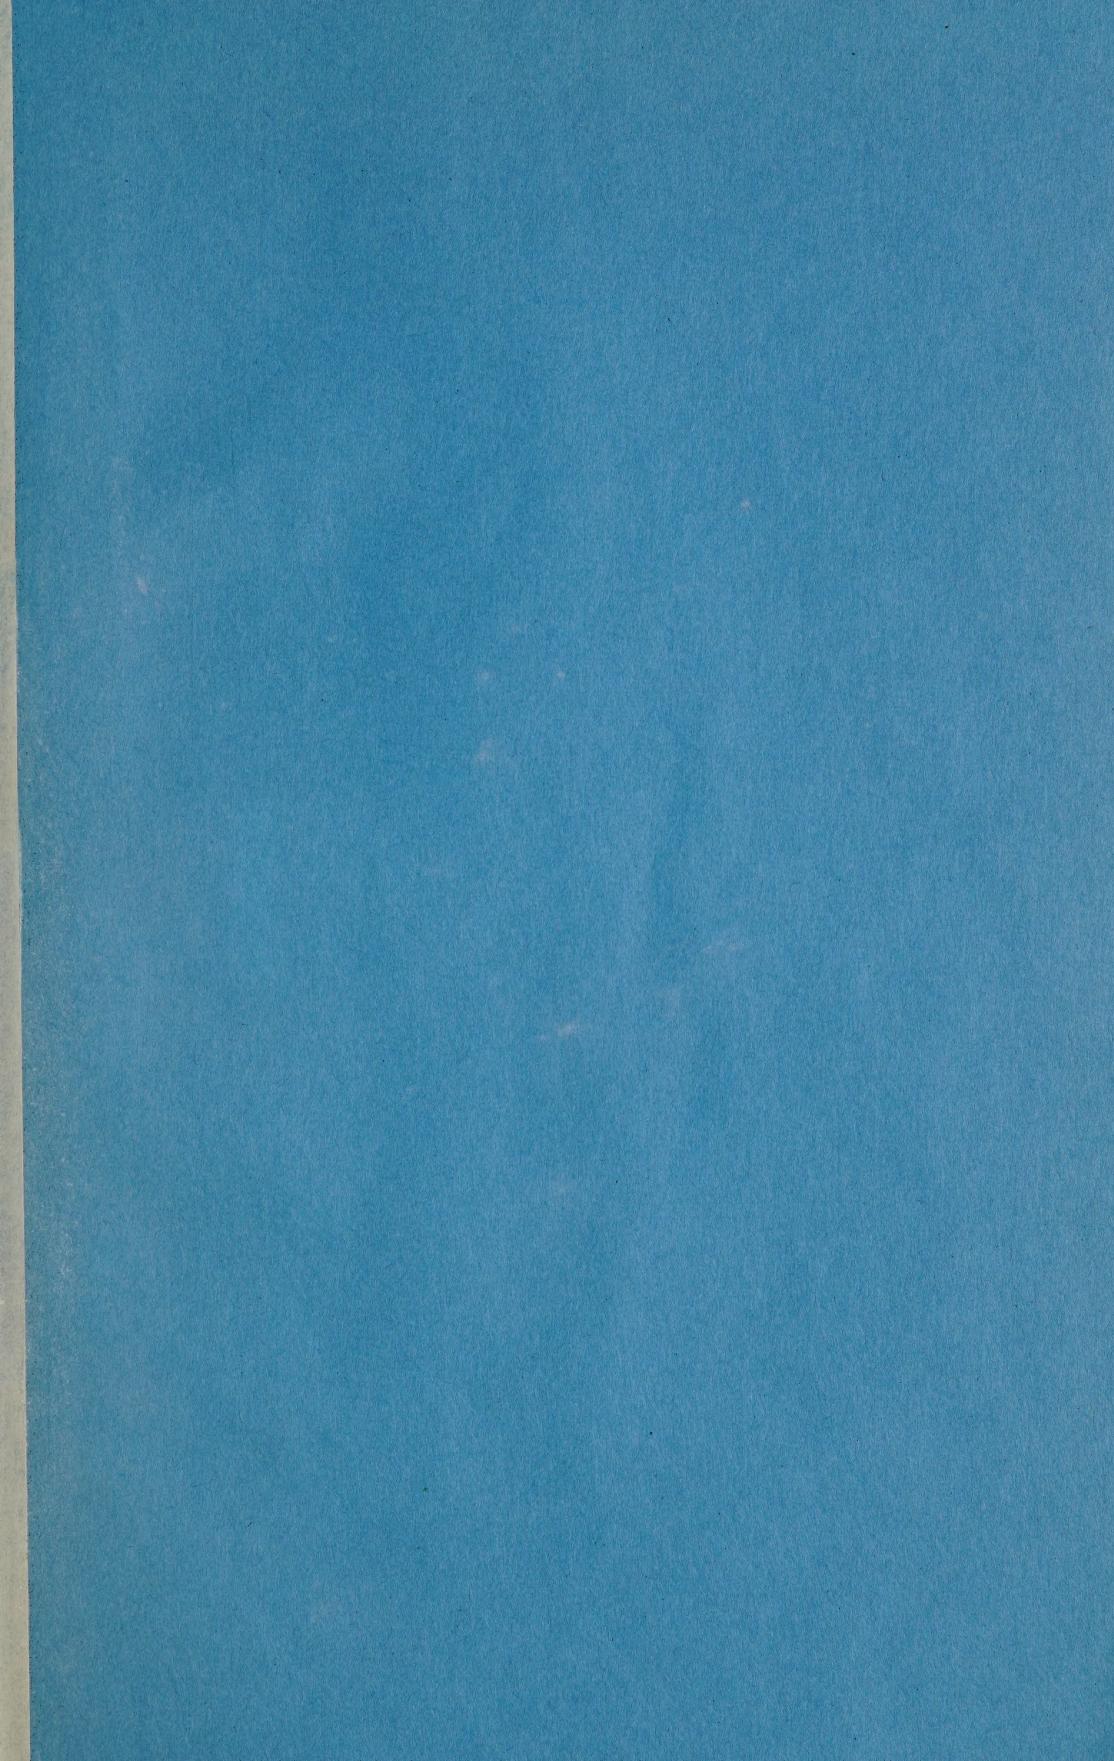

During the past year, this Service published the following terminological bulletins:

- BT-75 □ Les fiches du Comité d'étude des termes techniques français (6^e série)
- BT-76 □ Les fiches du Comité d'étude des termes techniques français (7^e série)
- BT-77 □ Vocabulaire général "E"
- BT-78 □ Répertoire alphabétique des lois fédérales (supplément à BT-68—annule BT-72)
- BT-79 □ Désignations des organismes de l'État
- BT-80 □ Désignation de divers organismes
- BT-81 □ Les fiches du Comité d'études des termes techniques français (fiches revisées des BT-46, 55, 65 et 71)
- BT-82 □ Les fiches du Comité d'étude des termes techniques français (8^e série)
- BT-83 □ Vocabulaire général "F"
- BT-84 □ Vocabulaire général "G"
- BT-85 □ Urbanisme
